Re: WC Docket No. 14-259

In an Order released on December 18, 2014, the Federal Communications Commission established a process to enable the provisional selection of additional bidders for rural broadband experiments support in the event any of the current provisionally selected bidders defaults before the time the Wireline Competition Bureau finalizes the list of census blocks that will be offered to the price cap carriers for Phase II of the Connect America Fund. Specifically, all bidders in the rural broadband experiments that wish to remain in consideration for rural broadband experiments support must file their most recent three consecutive years of audited financial statements, including balance sheets, net income, and cash flow, as well as a description of the technology and system design that would be used to deliver voice and broadband service meeting the requisite speeds to all locations in the funded census blocks, including a network diagram, which must be certified by a professional engineer.

Delta Communications would like to remain in consideration for our unsuccessful bid in Category One. Delta was successful in being provisionally selected in Category Three. Our network technology (fiber) would be the same for Category One as what we submitted in our 5620 for Category 3. Our 3 years audited financials have also been submitted through the 5620. It is my understanding through discussions with FCC personnel that our filings in the 5620 are sufficient for us to fulfil the requirements for remaining in consideration for Category One. If we need to file any additional information, please let us know.

Sincerely,

A handwritten signature in black ink, appearing to read "Ray Cagle", written over a horizontal line.

Ray Cagle
